DURASID[®]

easy lasting sidings

DURASID is a complete cladding system that can be used for new buildings and renovation : ideal to be used in housing, static park homes and industrial buildings. The core is made out of cellular PVC-U with a coextruded top layer. The system is an aesthetic alternative to traditional claddings.

The benefits of these external claddings are:

- little maintenance
- easy installation
- very durable
- impact resistant
- insulating function
- available in different finishing and colours
- natural look

CLADDING IN CELLULAR PVC WITH AN EMBOSSED WOOD GRAIN FINISH THAT COMBINES THE BENEFITS OF WOOD AND UPVC: THIS MEANS THE ATTRACTIVE LOOK OF WOOD AND THE FRIENDLY MAINTENANCE OF UPVC.

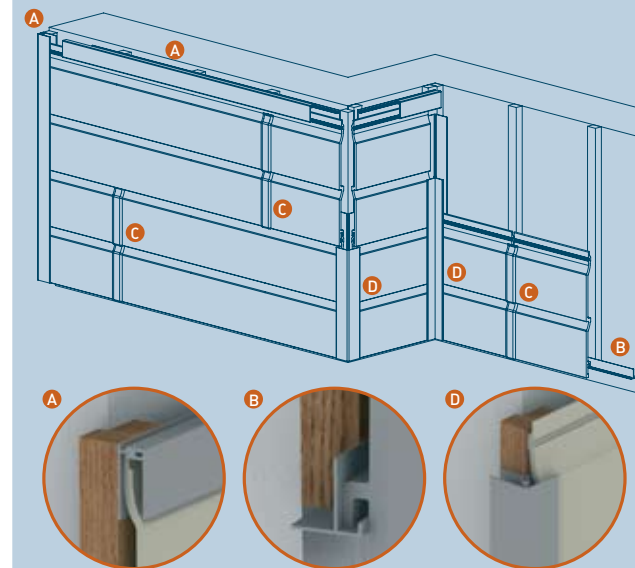

- A SIDING 167MM:** This model guarantees a natural look of your facade.
- B VERTICAL SIDING 167MM:** This siding can be installed either horizontally or vertically.
- C DOUBLE SIDING 333MM:** A double model for an even faster installation.
